information:

Nomenclature:

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	

Technical data:

Tool interface: Steep taper tooling HSK-tooling

Size of the interface: _____

Tool standard: _____

Form of the power drawbar: AS ES IS IF

RPM range: from _____ RPM to _____ RPM

Pull force: _____ N

Spindle length: _____ mm

Spindle diameter at the front bearing: _____ mm Spindle diameter at the rear bearing: _____ mm

Desired medium supply yes no

Coolant: _____ bar medium transfer

Cleaning air: _____ bar 1 2 3 4 5

Compressed air during rotation: _____ bar

Spindle orientation: horizontal vertical tilting spindle overhead spindle

Available release pressure: _____ bar Mechanical release force _____ kN

Available pneumatic release pressure: _____ bar

Position indication: with signal ring indication with piston indication
