

EU sanctions in connection with the Russian war of aggression on Ukraine
Verification requirement for iron and steel imports from Russia

With effect from September 30th 2023, the European Union has further tightened its sanctions against Russia. Pursuant to Article 3g (1) (d) of Regulation (EC) No 833/2014, the import ban on iron and steel products now also applies to the products listed in Annex XVII if they have been processed in a third country using goods of Russian origin.

OTT-JAKOB Spanntechnik GmbH assures compliance with these EU requirements. Our company does not process iron and steel products from Russia. Not even if these goods are imported via a third country.

With this letter we confirm that OTT-JAKOB Spanntechnik GmbH fully applies and implements the respective valid sanction regulations.

OTT-JAKOB Spanntechnik GmbH
